SMARTER CHARTER

Integrated search functionality on your own website and mobile app.

Provide superior customer service with search functionality on your own website or mobile app. Integrating directly to the Avinode Marketplace database, our ClientSearch solutions allow your customers to see real-time availability, prices, aircraft photos and much more. Whether you're looking for a solution that's ready today or something more customized, we have a solution for you.

Off-the-shelf solutions

Give your clients instant access to your fleet, empty legs or the full Avinode database with our off-the-shelf search applications for your own website or iPhone app.

YOUR OWN BRANDED SEARCH TOOL.
Upgrade your website and iPhone app with search functionality. Simply apply your branding, and your clients will feel right at home.

UP AND RUNNING IN NO TIME.
Launching your search application is fast and easy. Avinode's tech team supports you throughout implementation.

A PROFESSIONAL AND MODERN APPEARANCE.
Attract new groups of potential customers with a professional and modern iPhone app or website.

GENERATE MORE LEADS.
Get in control of your website's performance and give it new life by converting your visitors to leads.

Choose one or more of these application options:
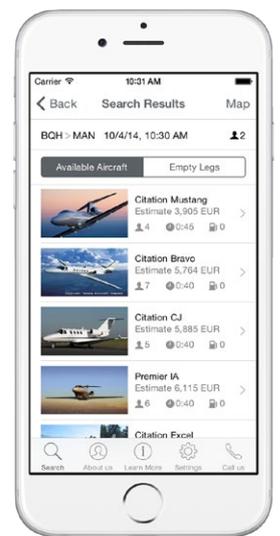

FLEET SEARCH.
Make only your fleet available to anyone, anytime, anywhere in the world with your very own charter marketplace.

EMPTY LEG SEARCH.
Let your customers search, view and request empty legs from wherever they are, whenever they want. Limit the search to only your posted empty legs, or let them search for empty legs worldwide.

FULL AVINODE MARKETPLACE SEARCH.
Get your company its own charter search and request application powered by the Avinode Marketplace database. Giving your customers the freedom to search and find the best solution.
